UNIVERSITY PRESENTATION	<p>UNIUD is a young dynamic university whose mission, since its foundation in 1978, has been to promote higher education by imparting knowledge and generating new ideas at the cutting edge of society. The key of its success at both the national and international level is the quality and enthusiasm of all of its components.</p> <p>Every year the best graduates of the University are awarded grants that include tuition reductions for enrolment in master degree courses and facilitations in job placement programs.</p> <p>UNIUD offers various services to ensure the well-being of its students, so as to assist those who have problems adapting to university life or those who encounter difficulties during their studies. The services comprise free laboratories for anxiety management, study methods, effective communication skills, mindfulness, meditation, problem solving and decision making (“Agiatamento Project”).</p> <p>The attention we give to students is a real added value: every course has a tutor who can help and take care of students.</p> <p>Thanks to the quality of our courses and their connection with firms and territory needs, UNIUD graduates could find easily a job (77,5% of the graduates a year after the degree). Moreover, our Career Center Service organizes job fairs and advices graduates on job opportunities.</p>
